Fly the legend

Built for performance, created for lively, exhilarating flights, the ACH125 is a member of the Ecureuil family — the world’s favorite turbine helicopter.
The ACH125 outclasses all other single-engine helicopters for performance, versatility and safety, excelling in hot and high and extreme environments.
A few have stood here. Only one has landed.

The ACH125 broke the record for the highest-altitude landing and take-off performed on the Mount Everest — Himalayas at 8,848 meters (29,029 feet) — a title still held today.
Make your highest ambitions soar.
Bank away from land, bound for distant peaks or isles. Begin the weekend in exquisite style.
Soar free from traffic jams below.

An emergency meeting, tight schedules.
The ACH125 has the power and speed to get you there with time to spare.
Keep a secret.

Get appreciated for choosing the very best. Prowen technology, authentic style, performance and reliability.
